Important message from the school medical officer

If your child's medical information has changed in any way please can you contact school and update his/her records accordingly. Please email help@shuttleworth.lancs.sch.uk giving brief details and I will contact you in the coming days and then update our records.

Also, if you have been sent any medical documents from school please can these be returned ASAP.

Can we also remind you that allergens such as peanuts should be avoided in pack lunches/snacks. This is particularly important given that students will be eating break time snacks together in classrooms. It is also very important students do not share drinks and snacks. This will prevent issues with allergies and help with the spread of the coronavirus.

Finally can I please urge you to contact us on the email address above if your emergency contact phone numbers have recently changed. More than ever it vital that we have accurate contact details in case of any medical emergency and to alert you if your child has coronavirus symptoms and urgently needs collecting. Please note we will also be using text messages to chase up school absences.

Thank you for your support and understanding.

Regards

Melanie Thomas
Medical Officer
