Sports science	LO1/LO2 section of Sports Injuries work booklet	LO3 section of Sports Injuries work booklet	Teams
Technology	Sections 1.6.1-1.7.3 of Seneca	Sections 1.6.1-1.7.3 of Seneca	Seneca

1. Break your revision into **small sections**-you can only process 4-5 pieces of information at a time
2. **Keep reviewing** what you know-test yourself regularly to make sure your revision 'sticks'
3. **Rephrase, summarise and extend** your notes, rather than just reading through them.
4. **Link** your revision to something you already know, this makes it easier to remember
5. **Challenge yourself** to see what you remember without checking your notes. This will improve your memory by up to 50%!

Top tips

- **Be realistic** and plan time away from your work to avoid burn-out! Avoid working constantly over the bank holidays and weekends.
- **Be focused:** 20 minutes working followed by 10 minutes rest is a good starting point.
- **Planning** helps you to balance your time so that you don't spend all your time revising one subject. Start with the revision timetable on the back.
- If you **share your revision plan** with friends or family then you are more likely to stick to it!
- **Don't worry** about other students' revision plans, everyone does it differently!

Suggested times	Mon	Tues	Weds	Thurs	Fri	Sat	Sun	Mon	Tues	Weds	Thurs	Fri
9-11am												
11.30-1.30												
2-4pm												
6-8pm												

Reduce-make the information as concise as possible. Write keywords and key concepts, not full sentences

Transform-change its form, convert images to keywords, or ideas to flow diagrams or images

Deconstruct-break your information into smaller chunks, use mindmaps or organisation chart

Revision Techniques:
Remembering key information
